~~*~*~*~*~*~*~*~*

Call topic; National expansion of the Service First Threshold Warning Report Calls

- * Discuss current status of SerrviceFirst (SF) related to customer contact
- * Our ongoing effort to standardize regulatory practices
- * Staffing involved with regulatory support
- * Training completed with the SF support team.
- * Regional differences related to CSMP customer communication.
- * Successes and learnings from previous rollouts of the North East, South East, and North Central Regions
- * The need for consistency in the CSMP program.
- * SF makes the fact finding call; they do not make any decisions regarding the increase. That still happens only after due diligence.

The SOP for SF has been made and distributed to the DRA team.
